

Marty, a nice
 person in my
 biology class, that
 likes to tell people's philosophy
 of life!! Good luck in track &
 cross country and in all you do.

 Louanne "76"

Marty, Since you wanted
 me to say this: "To a
 real pest," but don't worry,
 it's not always true. I
 should say to someone
 who doesn't always seem
 to have it all together but
 somehow makes it through.
 Take it easy + Good Bless
 Good Luck in all you do.
 Diane

Robert,
 To the one & only
 Marty. Thank God!!
 Good luck with your
 "underclassman years"
 & one day you'll be
 a great senior.
 Love,
 Teri

Marty,
 for a nice guy
 in my Biology class.
 Good luck in cross country (water
 out for track) and track. Also good
 luck living in the jungle.
 A.F.A. R.M.H.
 Jeannine "76"

Looking back on the memories
filed haphazardly
long and not so long ago
by the disorder
of emotional impact
there are forgotten victories
and defeats
whose pain has long
since died.
Egg shell thin thought fragments
bound by a spider thread
to conscious recall
fill the empty moments
and
trespass time.

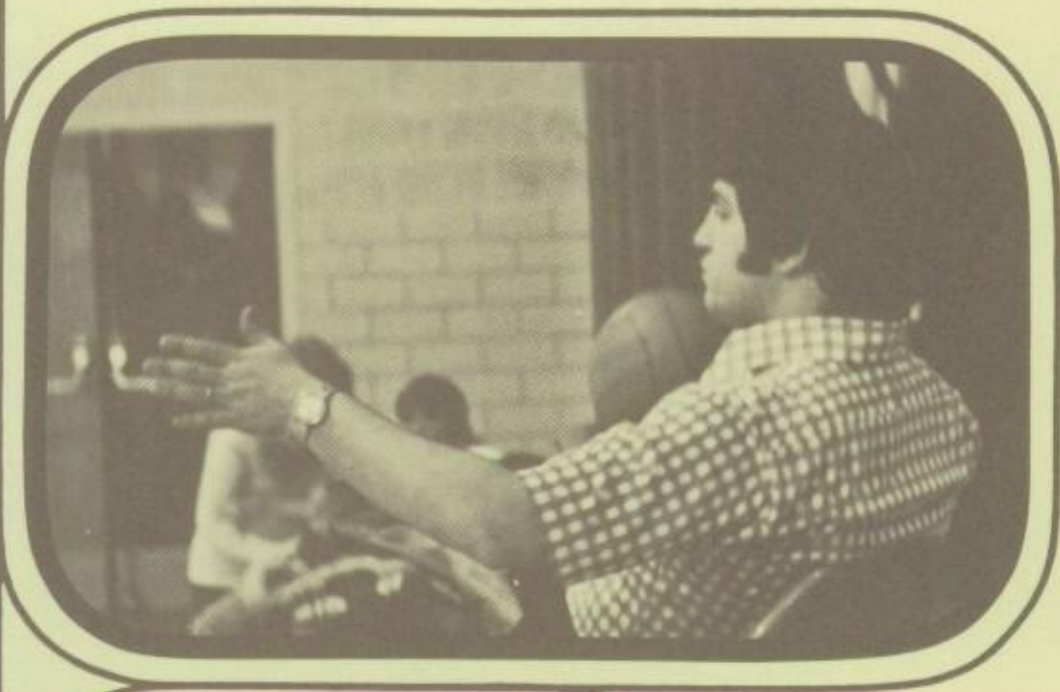

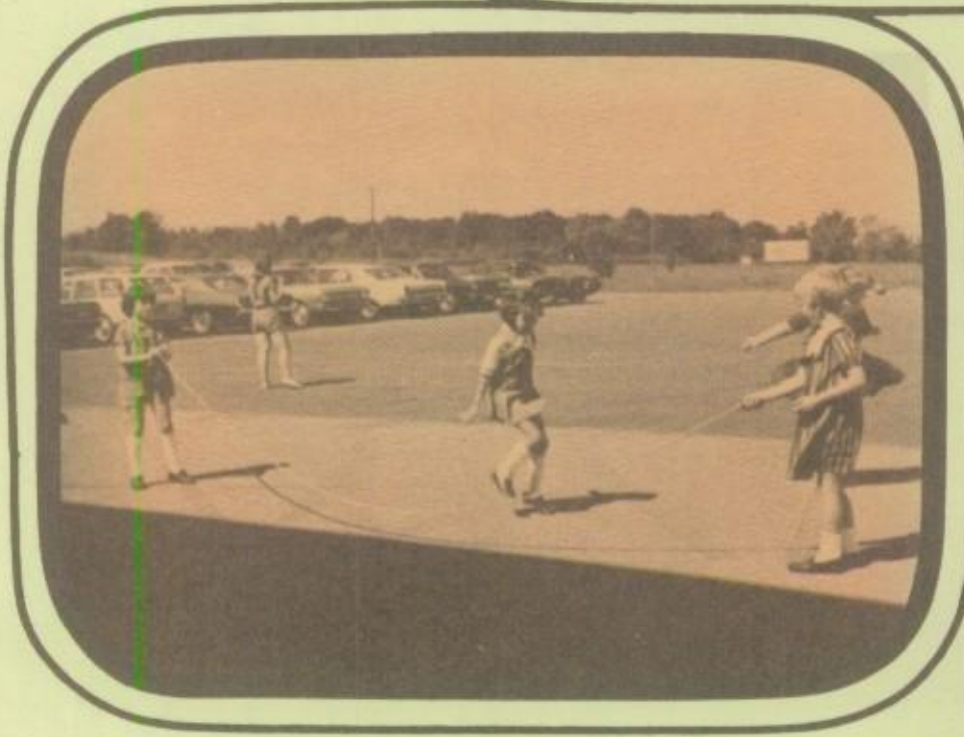

Soccer matches, locker room chaos, football rowdiness and even exercises make up this teacher's day.

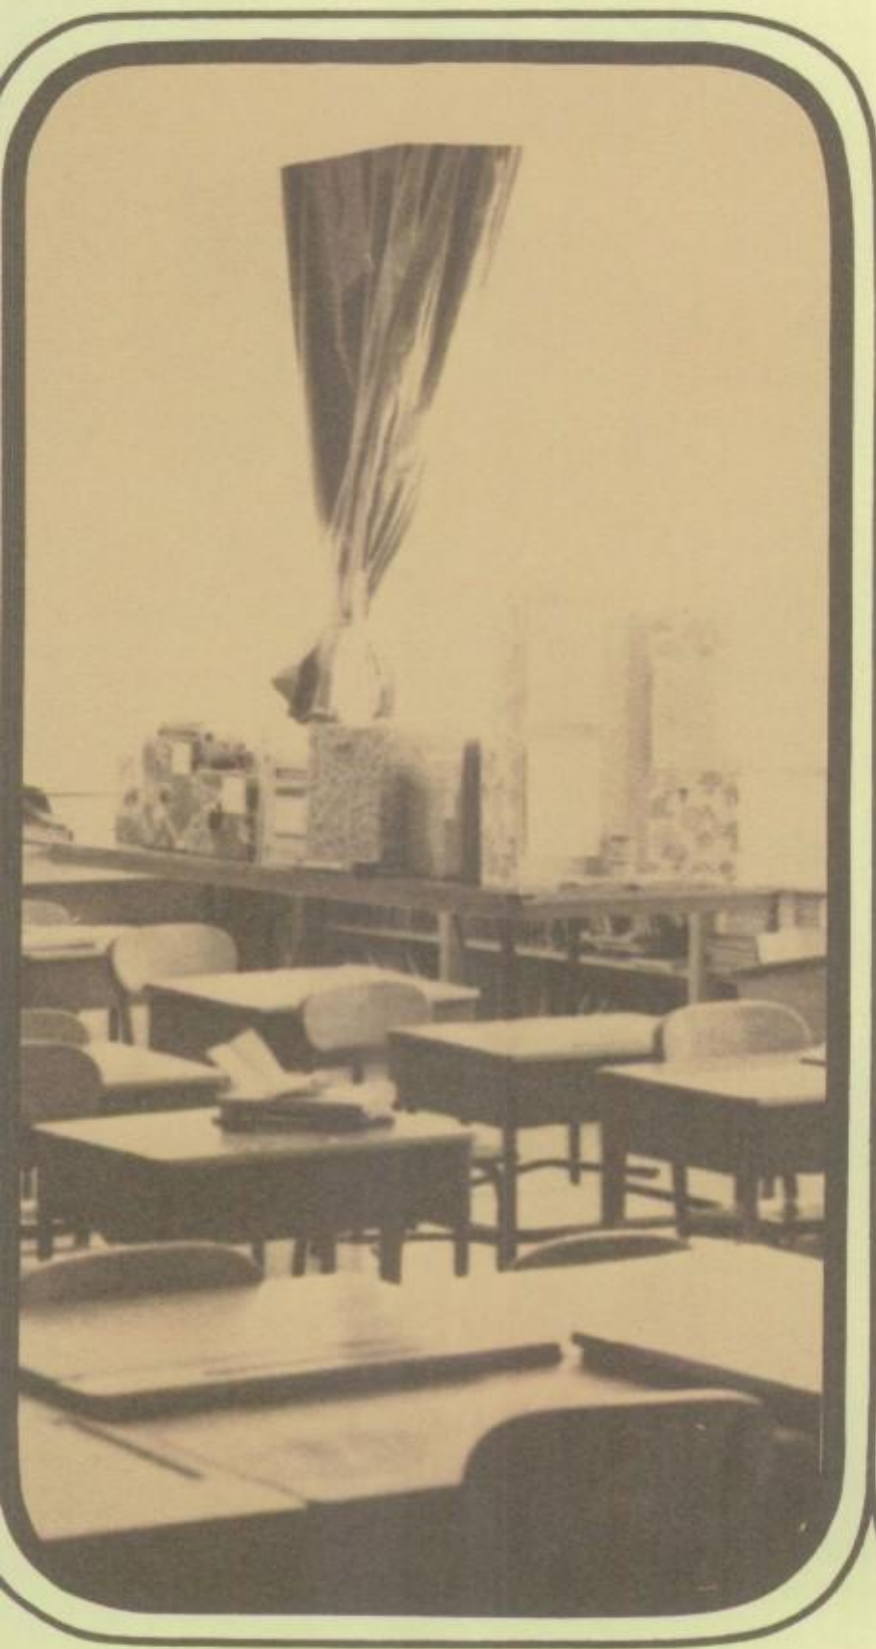

Undoubtably known better by the boys because of his teaching boys' phys ed. coaching track and cross country, this man has gained the respect of all the students at Commodore Perry.

Therefore, for his interest in his students as people as well as pupils, we the Senior Class of 1975 and this year's Logbook Staff dedicate the 1975 Logbook to Mr. William Oliver.

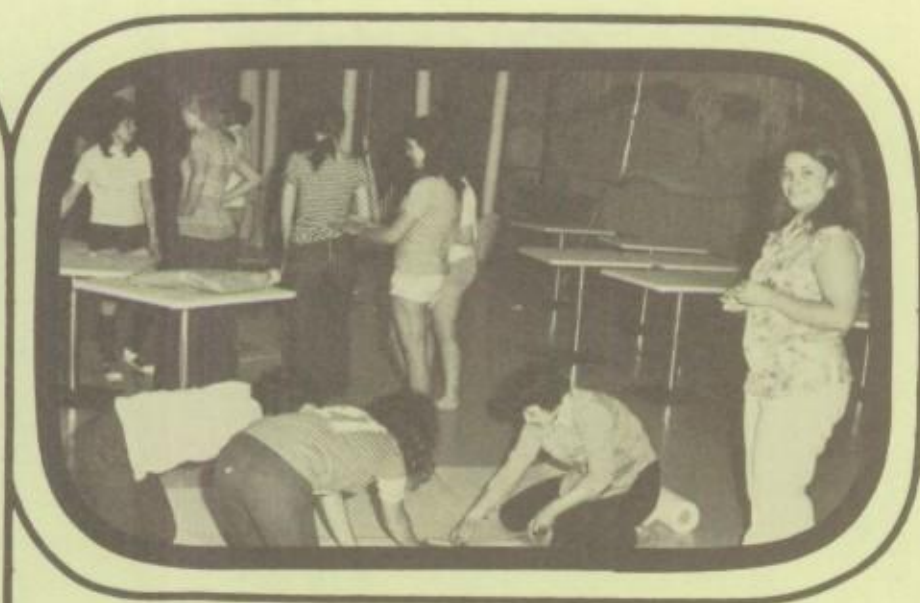

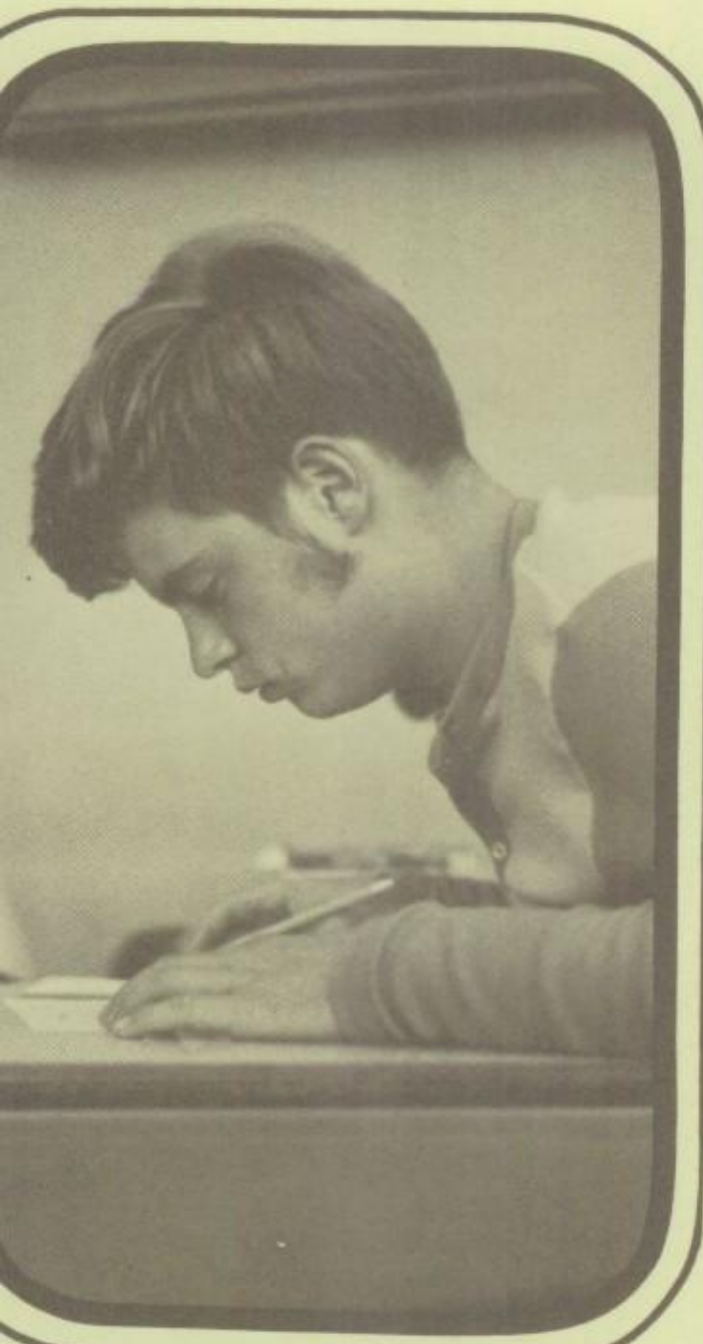

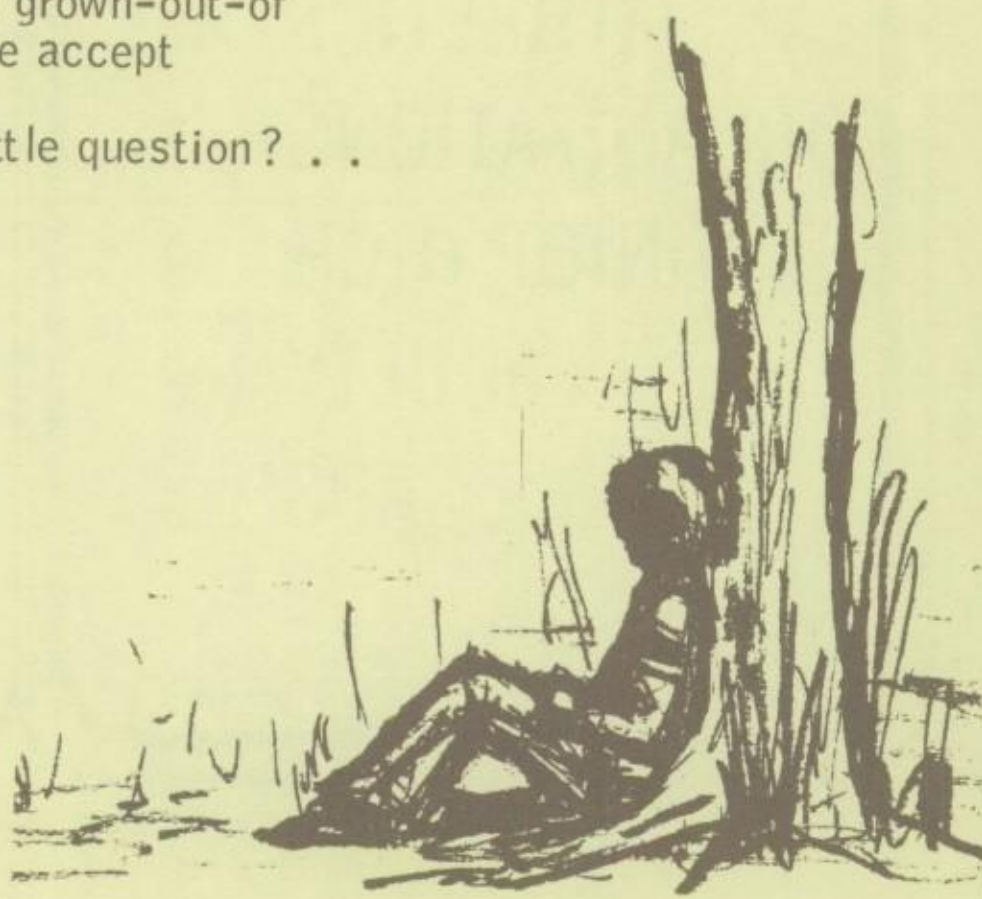

remembering . . .
 the first awkward days . . .
 the first awkward years . . .
 when school was a phenomenon
 occurring five days
 absent two . . .
 spelling tests every friday
 and recess after lunch,
 funny how we didn't
 fit the swings in first grade
 and now
 we don't again
 in eighth . . .
 standing in the middle
 between the memories
 and dreams
 of a hopeful future . . .

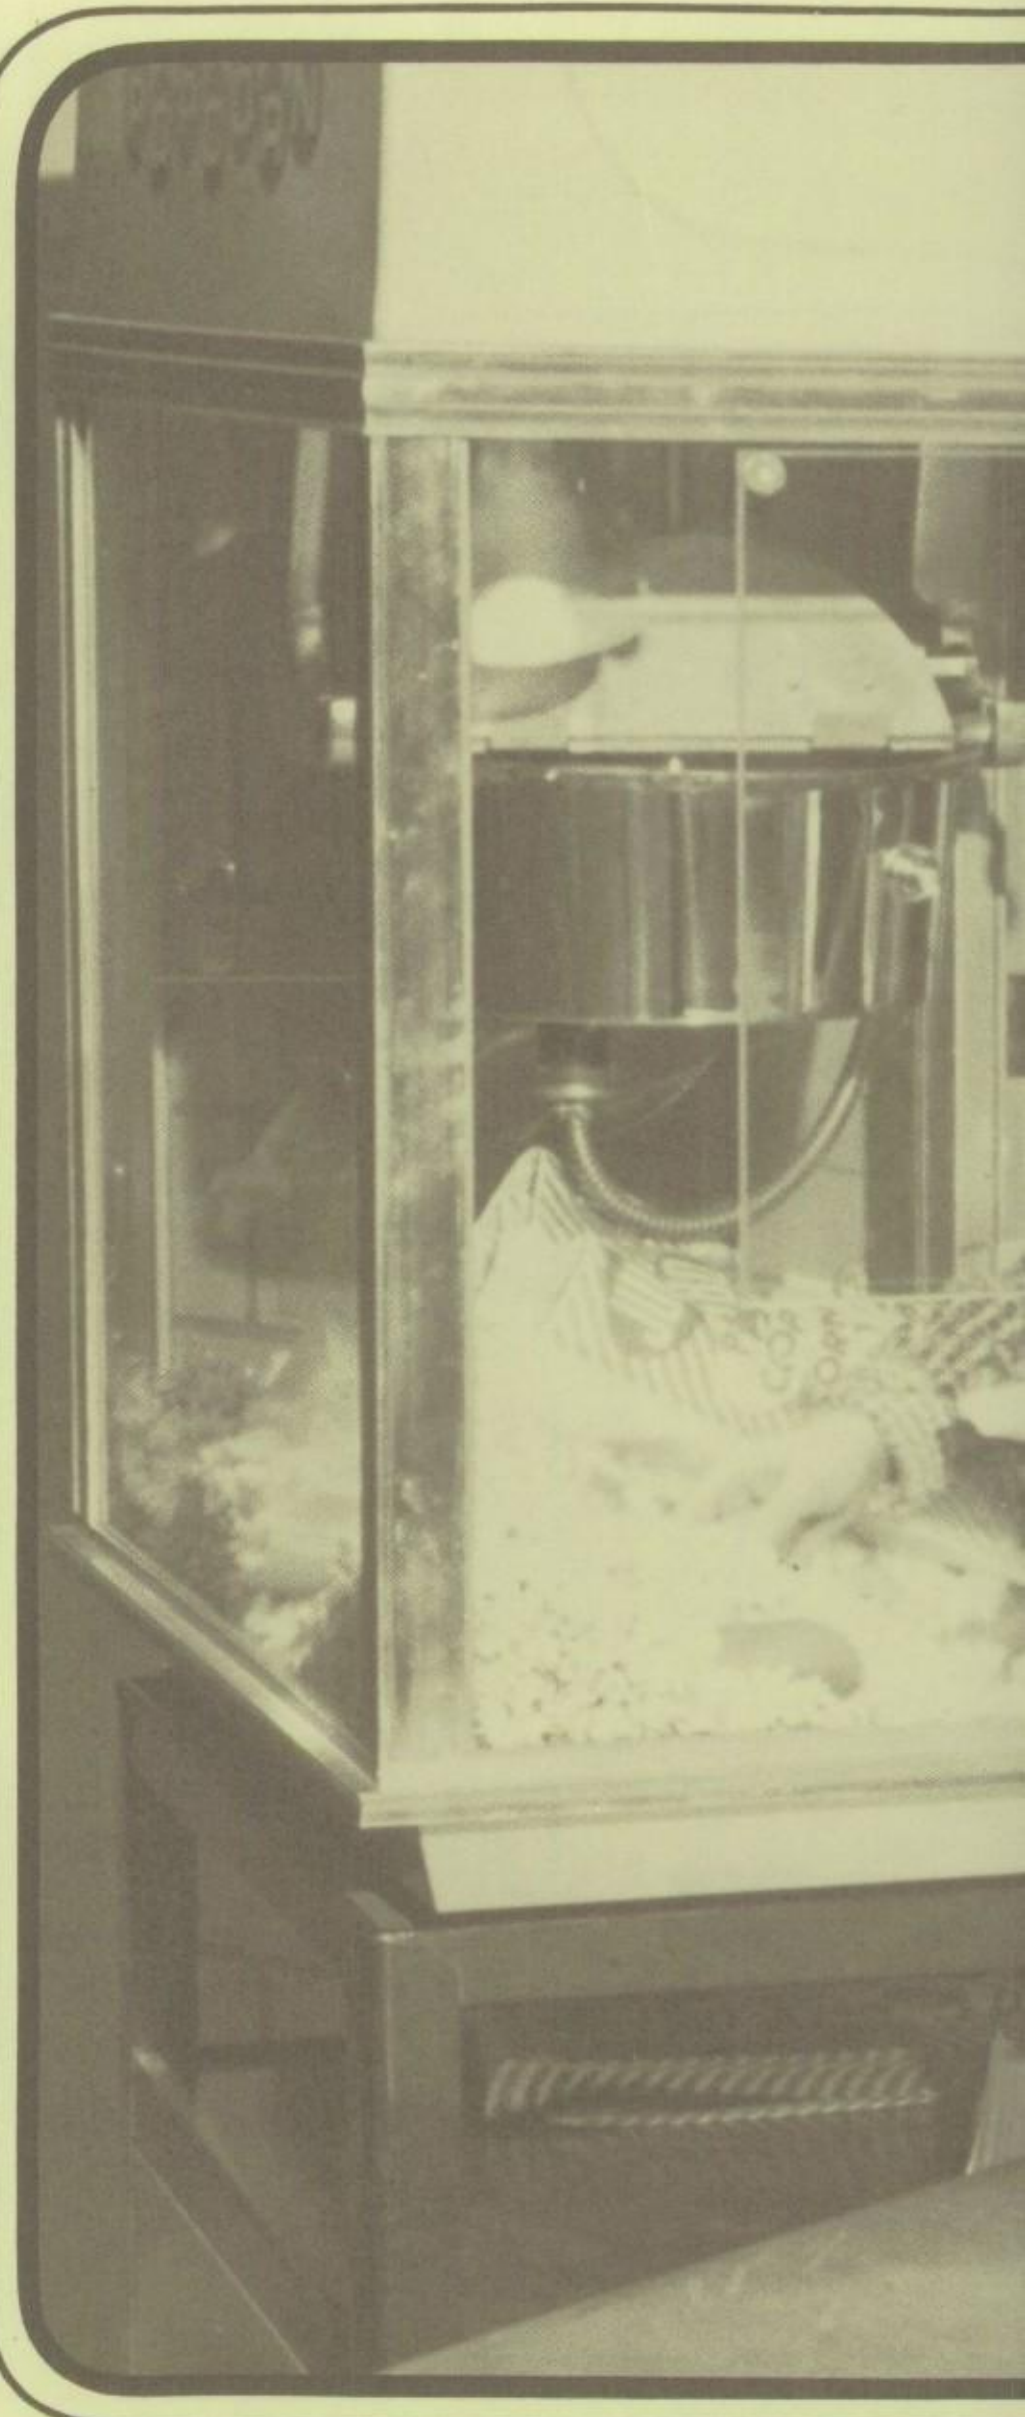

who ever warned us
 that the addition and subtraction
 would grow into
 formulas , theorems
 and logic? . . .
 it was not so long ago
 we were told
 "the earth is round"
 and now we're
 told to prove it
 we took tomorrow
 for granted after all
 there was a yesterday
 looking back
 to a world grown-out-of
 how did we accept
 so much
 with so little question? . . .

the sports season begins with cross country . . . a grueling sport . . . demanding stamina, endurance, strength . . . a competitive sport . . . running against the other team . . . running against fellow teammates . . . running against nature's own obstacles . . . winter comes . . . and brings basketball and wrestling with it . . . fans scream the gym full of noise . . . basketball is a game for the talented . . . requiring balance, coordination, speed . . . and of course, team work . . . a whole team striving to put a ball through that all-important hoop . . . two more points . . . in a parallel time the wrestlers have their season . . . a time to compete for their team . . . for themselves . . . the flowing energy of fleshy ripples

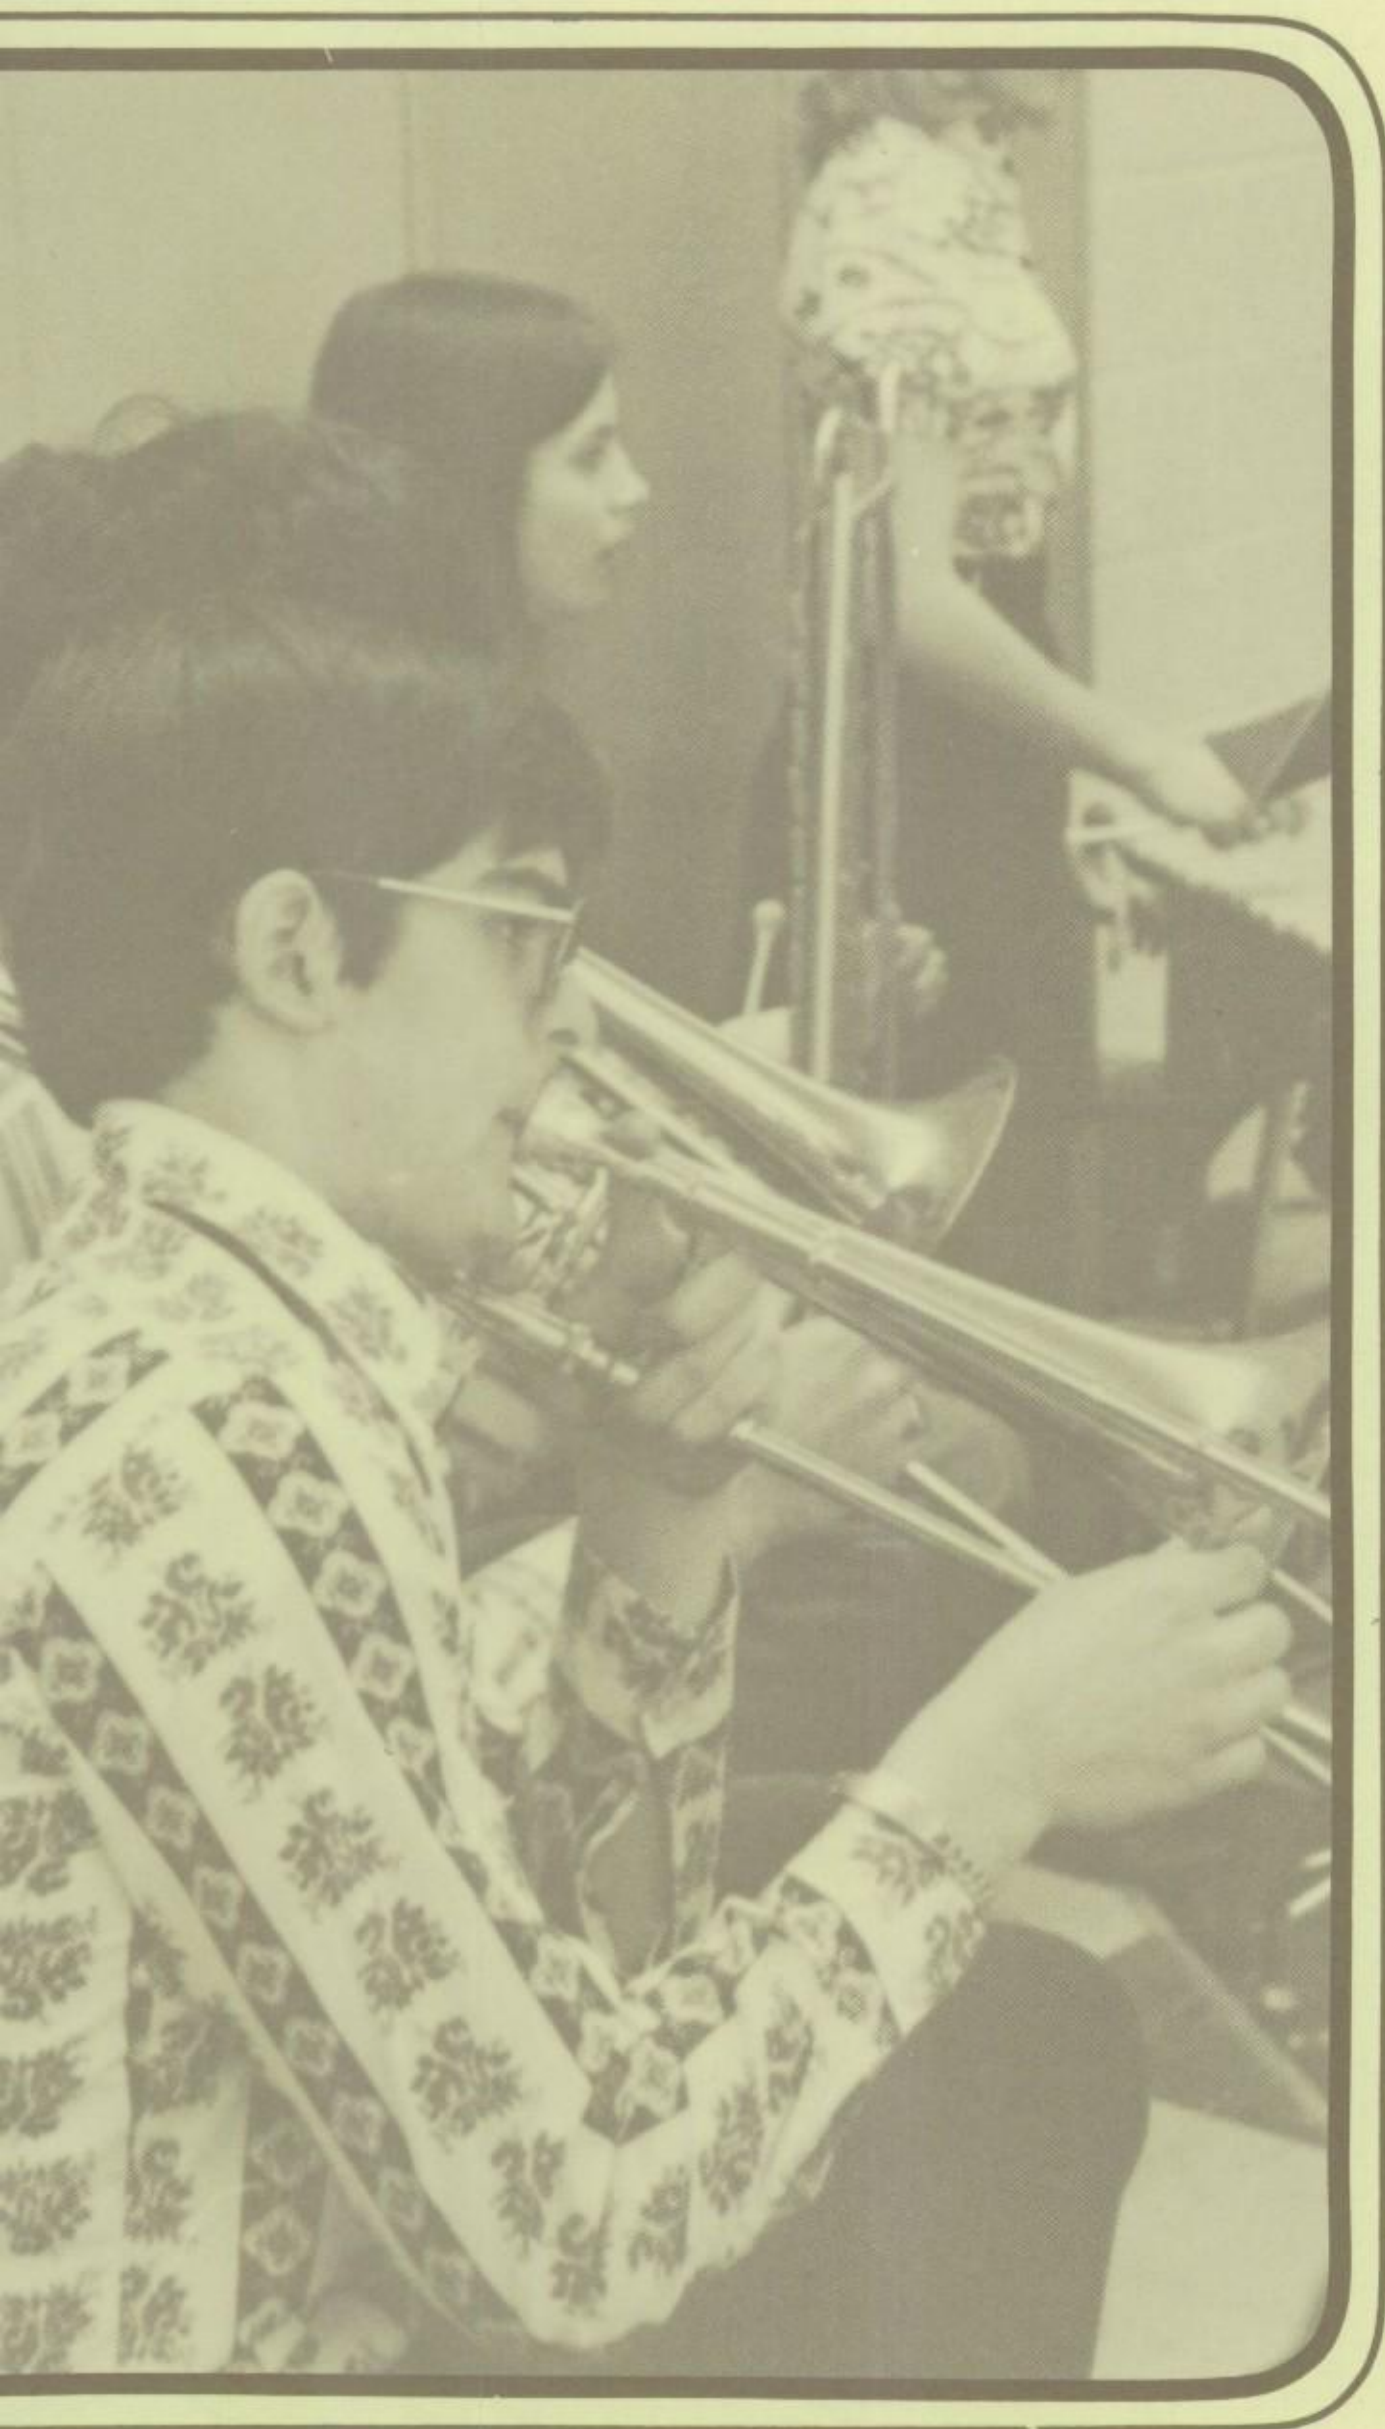

belies the amount of concentration needed . . . the knowledge, partly learned, partly acquired through experience knowing when and where to apply force . . . sports involve more than the participants . . . there are fans, scorekeepers, and cheerleaders . . . cheerleaders to support the team . . . when they're winning as well as when they're losing . . . timers and scorekeepers serve an obvious function . . . a job that must be done . . . for all involved, sports demand courage to accept defeat when winning isn't possible . . . and the courage to try again . . . and keep trying . . .

GRADUATING SENIORS

Student Council

somewhere, between the
faculty students and admini-
stration there must be a bridge
of communication . . . a bridge
that all three can respect . . .
and feel free to talk to . . .
the student council tries to fill
this need . . . frustrating and
grying as the position may be
. . . a body elected by fellow
students . . . responsibility
. . . whether it is accepted by
the electors and elected . . .
or ignored . . . it is still there
. . .

YOUTH EDUCATION ASSOCIATION

Officers

one day a year the school is taken over by students-turned-teachers . . . and sometimes even students-turned-administrators . . . for a day, the "teachers" learn far more than they could hope to teach . . . classmates . . . how different they look from the other side . . . teachers . . . even they seem a little more understandable when viewed from this angle . . . the youth education association . . . closing the communication gap between instructors and instructees . . . trying to make school more than just eight periods a day . . . sharing what has been learned to teach others . . .

STAGE CREW

small schools suffer the burden of having to convert a gym to an auditorium for every assembly . . . then back again after it's over . . . so many chairs in so many rows, the speaker's podium, lighting . . . someone has to take the responsibility . . . someone does . . . a small group of unheralded individuals (recently infiltrated by women's lib) . . . but who else can claim the title of assembly seating engineer . . .

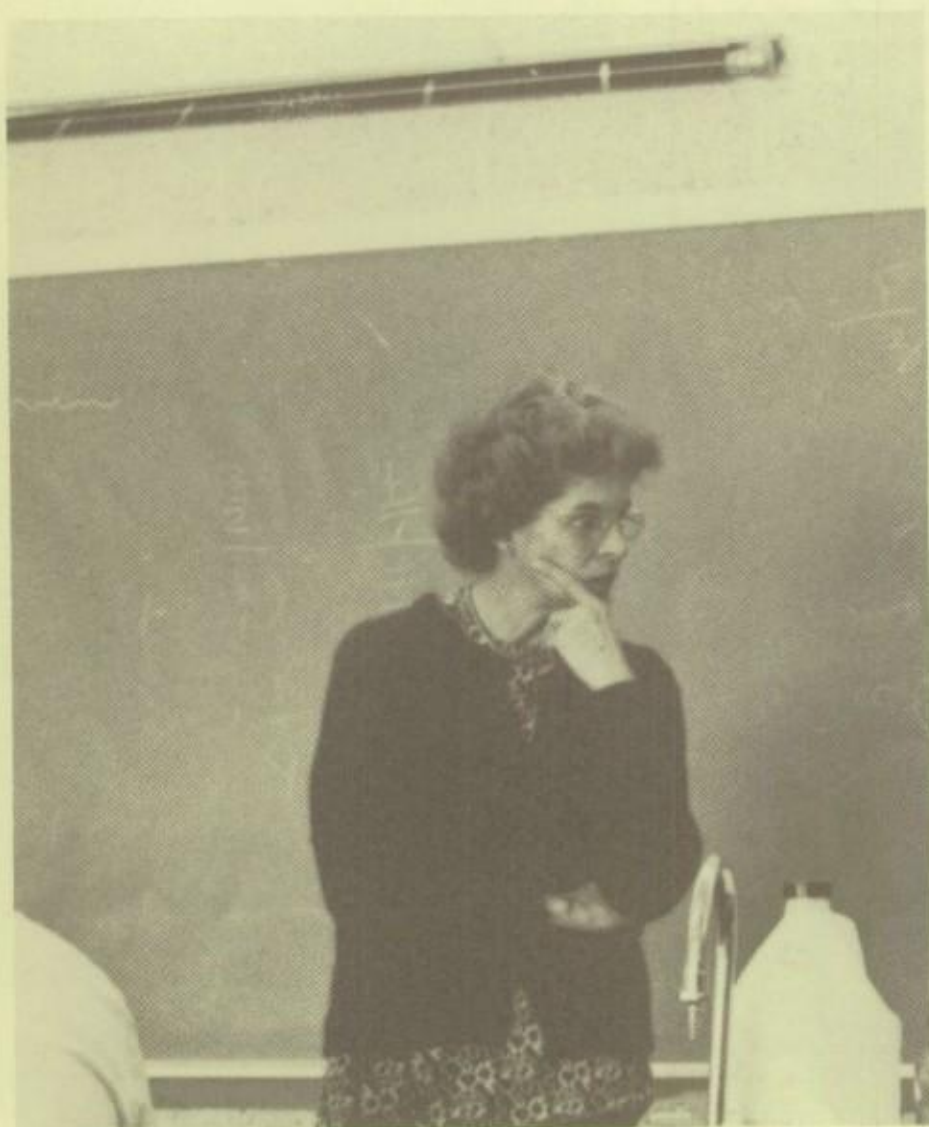

LIBRARY STAFF

some people talk , chew gum or make paper airplanes during their study halls . . . and then there are the poeple who sacrifice these precious periods to work in the li-brary . . . surrounded by books and imposed quietude they go about their tasks . . . checking passes . . . check-ing out books . . . signing passes . . . shushing the noisy . . .

To everything there is a season,
and a time for every purpose under heaven:
A time to be born, a time to die;
a time to plant and a time to reap;
A time to kill and a time to heal,
a time to break down and a time to build up;
A time to weep and a time to laugh;
a time to mourn and a time to dance;
A time to cast away stones, a time to gather stones together;
a time to embrace and a time to refrain from embracing;
A time to get and a time to lose;
a time to keep silent and a time to speak;
A time to love and a time to hate;
a time of war and a time of peace.

Ecclesiastcs 3: 1-8

Accepting that cardboard key now has a different meaning than last May. Hidden somewhere between all those paper fibers were unseen experiences of days that were to come.

One cannot visulize how much work is put into one hundred thirty-six pages of yearbook unless they are the creators.

This year's Logbook staff, after a great deal of hard work, has produced a fine creation. A special commendation goes to Deb Redman, Cathy Johnson and Bill Wiess who gave up their time during those frantic final deadline days to see us through. One member particularly deserves credit, Nancy Redman. She has written all the copy in this book and spent hours on layouts. I would like to express my deep gratitude to her and to the whole staff.

Thank you and good luck to next year's staff and to the Class of '75.

Editor Susan McGinnis
